

NORFOLK OFFSHORE WIND ZONE COMMUNITY FUND

Discovery Phase – February 2025

The Community Panel funded 11 projects in Norfolk as part of the ‘Discovery Phase’ of the Norfolk Offshore Wind Zone Community Fund.

Organisation	Project Area	Description
Swanton Morley Village Hall Trust	Swanton Morley	To install 35 solar panels on the roof of Swanton Morley Village Hall.
Bawdeswell Village Hall	Bawdeswell	To install solar panels and battery storage at Bawdeswell Village Hall.
Wellspring Family Centre	Dereham	To improve the energy efficiency and insulation of the room used for the foodbank and create a new access to the main hall.
Aylsham & District Care Trust	Aylsham	To install solar panels on the roof of the Trust's building in Aylsham.
Banningham and Colby Community Hall	Banningham & Colby	To install battery storage to store power generated from the PV panels already installed on the village hall's roof.
Antingham Village Hall	Antingham	To repair, treat and insulate the timber framework of the hall, and then re-clad it using a modern breather membrane and composite cladding.
Wenn Evans Centre	Happisburgh	To add battery storage for the solar panels already installed at the Centre.
Eves Hill Veg Co	Aylsham	To expand the market garden site by installing a rabbit proof fence, water supply, community orchard/tree nursery, and to run two free workshops for the community.
Elsing Woodlanders	Elsing	To support the group's nature club for children and young people by erecting a workshop shed with concrete base, covered area and work bench as well as tools for woodwork and tree planting.

Field of Joy	Reepham	To continue the Teen Rangers and Sanctuary Garden groups for young people, and begin a new intergenerational group focused on organic growing, tree planting and wetland/waterway conservation.
Wild Touch Wildlife Centre	Ridlinton	To improve the centre's volunteer work by supporting costs for rescued animals and replacing wooden aviaries with metal aviaries.
